

QUALITY POLICY

The quality oriented towards satisfying the expectations of the interested parties is a fundamental element that ensures the success and competitiveness of the company, especially in a market situation such as the current one in which the demands are increasingly greater and more complex. .

We have established as a maximum objective the commitment to the continuous improvement of QUALITY

Allocating all the necessary resources to carry out an EFFECTIVE MANAGEMENT

Favoring the GOOD organizational CLIMATE and the appropriate communications

Taking into account the results of the processes as an essential measure to be able to control our EVOLUTION

SLOWING THE MARKET

WITH A FIRM COMMITMENT:

PROMOTE both the employees, shareholders and clients, the concept of Litografía Romero as a company worthy of TRUST

KEEP our sense of organization, and consequently, of our responsibilities in perfect order

BASE our work on clearly defined objectives based on continuous improvement. This is the only way to achieve maximum EFFICIENCY

COMMUNICATE, publicize and support our quality policy among the entire company, as this will be the basis used by it to make decisions with OBJECTIVITY AND CRITERIA

PROVIDE our clients with products that comply with the agreed requirements and with the legal and regulatory provisions IN TIME AND FORM

TAKE ADVANTAGE of the use of measurable indicators, based on the expectations of our clients, to establish these objectives and increase our PERFORMANCE

AND ALSO TO:

Be representatives of the company, and as such, always keep in mind the CODE OF GOOD PRACTICE in their dealings with customers and suppliers. Ensure that the actions to improve QUALITY are adapted to the established objectives and that the plans are elaborated with this purpose. Continuously monitor the efficiency and results of actions to improve quality.

Actively work to ensure that all personnel under their responsibility are fully qualified for their tasks and that they fully assume their commitment and duty regarding QUALITY.

QUALITY MANAGEMENT SYSTEM

GUARANTEE SAFETY of employees.

PROTECT and maintain our ASSETS.

CULTIVATE actions aimed at protecting the ENVIRONMENT.

ENSURE the supply of PRODUCTS AND SERVICES with the required quality
